BICYCLE RELAY RIDE.

What the Governor of Illinois will Say to the Governor of Kentucky.

Frankfort did not get the compliment of one of the relays in the great bicycle relay ride from Springfield, Ill., to this city, but she got the next best thing to it in the appointment of Mr. Will. A. Lewis, of the ROUNDABOUT, to accompany Mr. Thomas E. Jeffries on the twelve mile relay from Peytona.

As this is to be a grand test of the speed and uses to which bicycle relays may be put, the entrance into this city along the Louisville pike, on next Saturday, will no doubt be eagerly looked for by a large crowd of interested spectators.

The distance from Springfield to New Albany is 300 miles, which will be run on an average of ten miles an hour, including night as well as day riding, and the distance from New Albany to Frankfort is 61 miles, which will be run in 4:05 hours, or fifteen miles an hour.

The start at Springfield, with the message that Gov. Altgeld proposes to send to Gov. Brown, will be made at 9 o'clock Friday morning, in the presence of a large assemblage and under the inspiration of music and appropriate ceremonies. New Albany will be reached about 3 o'clock on Saturday afternoon.

From New Albany to Frankfort, which is under the charge of Ed. Meglemry, jr., of Louisville, is divided as follows:

To Louisville, 7 miles—Phil E. Allison and Curt Scott.

To Middletown, 14 miles—Will Ruby and George Martin.

To Simpsonville, 10 miles—Dr. V. H. Hobson and Hugh Caperton.

To Shelbyville, 8 miles—Albert Hughmark and Phil Barbour.

To Peytona, 10 miles—Perry Weaver and Mort Broadus.

To Frankfort, 12 miles—Tom Jeffries and Will A. Lewis.

On arriving at the Executive Mansion in this city about 7 o'clock, the Messrs. Jeffries and Lewis will deliver the message to Gov. Brown, who will address the crowd that will be present on the occasion.

Matrimonial.

WILLIS-SMITH; TAYLOR-WILLIS—Mr. Thomas Willis, of this city, and Miss Dora Smith, of Versailles, and Mr. Chas. F. Taylor and Miss Julia B. Willis, of this city, went to Louisville Monday evening on the C. & O. train and both couples were married in the Jeffersonville that night. The first couple eloped, as the parents of the young lady were opposed to the match. The latter couple expected to be married in a short time and were easily persuaded to accompany the elopers and make the affair a double wedding.

WILLIAMS - MORRIS — Invitations were issued Monday to the marriage of Miss Sue Morris to Mr. John W. R. Williams. The invitations read as follows: "Mr. and Mrs. Richard Morris request you to witness the rite of marriage to be solemnized between their daughter Sue and Mr. John W. R. Williams, at seven o'clock Thursday, the first of June, 1893, in the First Presbyterian Church, Frankfort, Kentucky." Inclosed in the invitation was a card of admission to the church.

DADE-FARRA—The following invitation has been received by friends in this city:

Mr. and Mrs. Aaron Farra invite you to attend the marriage of their daughter Blanche

SMITH-ALLEN—On Thursday afternoon Miss Mary E. Allen and Mr. Milton Smith, a brother of County Clerk N. B. Smith, were united in marriage at the residence of the bride's father, Mr. Elisha Allen, in Bald Knob, Rev. J. A. Peters, of the Baptist Church of Pleasant Ridge officiating. The groom is a worthy young farmer on Benson Creek, just back of Bellepoint, and his bride a handsome young lady, whose superior qualities have won her many admiring friends.

THE CONVICTS.

More Cell Room and Other Improvements to be Made in the Penitentiary.

The Sinking Fund Commissioners met Wednesday and adopted a resolution to employ idle convicts in building additional cell house accommodation, shops, rooms and other necessary improvements at the penitentiary in this city, contemplated by the appropriation of \$55,000 which the Legislature made some time ago. This resolution, however, is not intended to interfere with the purpose of leasing the convicts, for which proposals are now invited, but it is merely an adjunctive plan to make the best use of the appropriation by employing on the work all such convicts who may not be leased. An architect will be engaged at once to draw the plans and specifications and the improvements will be made at the earliest moment.

Why Don't You Stop

These words are very familiar to our readers, as not a day passes without the report of the sudden death of some prominent citizen. The explanation is "Heart Diseases." Therefore beware if you have any of the following symptoms: Short Breath, Pain in Side, Smothering Spells, Swollen Ankles, Asthmatic Breathing, Weak and Hungry Spells, Tenderness in Shoulder or Arm, Fluttering of Heart or Irregular Pulse. These symptoms mean heart disease. The most reliable remedy is Dr. Miles' New Heart Cure, which has saved thousands of lives. Book of testimonials free at J. W. Gayle's who also sells the New Heart Cure. 1

WRECK AND CHASE—Sunday morning an open switch derailed a freight train near Bagdad and it was reported in this city that it was probably done by a lunatic who it was said was at large on the Black farm, below Collins' station. Marshal Jeffers, Chief Williams and Officer Innes, started in pursuit that night but failed to find the lunatic, and on their return on the Devil's Hollow turnpike, the horse they were driving to a surrey, became frightened and broke a trace and Jeffers jumped from the vehicle without injury, but Williams and Innes were thrown to the ground and sustained a number of severe bruises.

The Cosmopolitan for May.

A New York daily paper, taking up the idea conveyed in Flammarion's exciting novel, "Omega: The Last Days of the World," has interviewed a number of the leading men in all professions as to what they would do if science were to predict to-morrow that the end of the world would arrive within the next thirty days. The answers are various and curious, and heighten the interest which is felt in the second part of Flammarion's great novel, which appears in the May Cosmopolitan. It is a question which everyone will find interesting to ask of himself: What would you do if within six weeks the end of the world were certain? Probably no novel which has ever appeared in an American magazine has been more elaborately illustrated by more distinguished artists. Laurens, Saunier, Vogel, Meaulle, Rochegrosse, Geradin and Chovin all contribute to the explanation of the text.

A clever story of another kind is that of the new English novelist, Gilbert Parker, in the same number. "American Society in Paris" is an article of another kind, but one which will interest all who have had occasion to make even a short residence in the French capital. The Cosmopolitan scores a success in producing in its May number, almost simultaneously with the daily papers, an elaborate description of professor Gray's marvellous invention, the Telautograph, which reproduces the handwriting, or the work of the artist, simultaneously, thousands of miles distant from the place where the writer or artist is sitting. Mr. Howells' purpose in "The Traveller from Altruria" is, month by month, becoming more evident, and is now receiving wide attention at the hands of the critics all over the world.
